

The Master of Aviation Industry Management (AIM), incorporating graduate certificate and graduate diploma, is a master degree program offered jointly by RMIT University and Air Transport Training College (ATTC).

The AIM program provides the opportunity to integrate industry-specific skills required to analyse and implement creative solutions. The program is designed to enhance leadership, communication and interpersonal skills, taking account of rapidly changing market forces.

Participants come from airline, airport operations, maintenance, traffic control and freight forwarding operations who are moving into management positions.

Career Prospects

AIM is particularly relevant to

- People undergoing mid-career transfer to management from operations or engineering professional streams in the aviation industry
- Professional managers wishing to switch career to the aviation industry

Entry Requirements

Applicants are generally expected to have :

- Reasonable command of the English language
- A first degree in a relevant discipline
- Have a minimum of 2 years relevant work experience
- Under certain circumstances, applicant without a first degree but with significant work experience holding flight or maintenance qualifications will be accepted into the program, pending satisfactorily meeting other selection criteria.

Application Procedures

Application can be made through Air Transport Training College using prescribed forms.

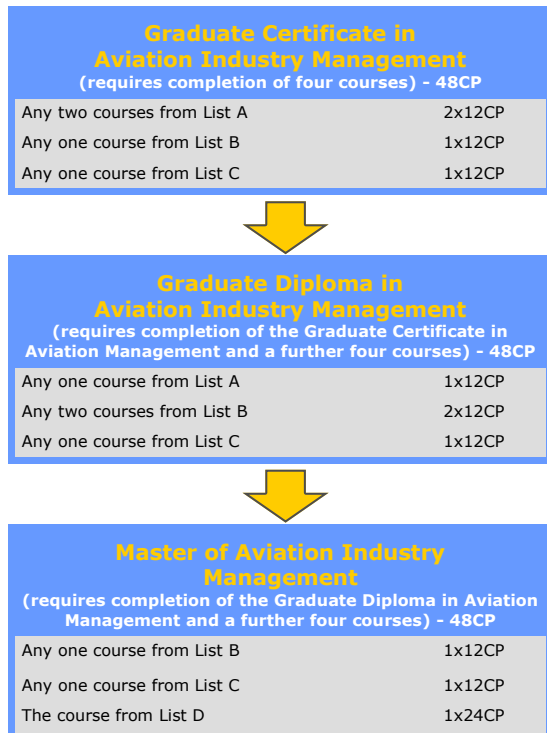

Please refer to ATTC web site <http://www.attc.edu.sg>

Course Structure

Master of Aviation Industry Management will be awarded by RMIT University upon successful completion of 11 course units:

- 10 of which are 12 credit points
- 1 of which is a 24 credit points research project

It will take 6 semesters of part-time study over a period of 24 months or 2 calendar years. Students will undertake 3 semesters of study per calendar year

Course Fees

Total program fees is S\$36,600 per student or S\$6,100 per semester (excluding textbook and GST)

Note: Changes to fees are applied from 1 January each year.

Course Units

List A—Core Aviation Generalist Units

All the following courses must be completed to be awarded the Master of Aviation Industry Management

AERO2236	Introducing and Controlling Performance Systems	12CP
AERO2235	Aviation Safety Systems	12CP
AERO2239	Aerospace Industry Infrastructures	12CP

List B—Core Business Foundation Units

All the following courses must be completed to be awarded the Master of Aviation Industry Management

MKTG1235	Marketing Management	12CP
ECON1207	Economic Decision Making	12CP
ACCT2143	Financial Management	12CP
LIBR1104	Information Technology for Managers	12CP

List C—Electives

Any THREE (3) of the following courses must be completed to be awarded the Master of Aviation Industry Management

AERO2243	Introduction to Aviation Law	12CP
AERO2242	Airline Marketing	12CP
AERO2240	Airline Operations Management	12CP
AERO2244	Airline Alliances	12CP
ECON1211	Airline Environments	12CP
AERO2241	Airport Management	12CP
AERO2352	Human Factors In Aviation Safety	12CP
SOCU2111	Implementing & Managing Airport Security	12CP
AERO2372	Aviation Risk Management	12CP
AERO2369	Incident and Accident Investigation	12CP
MANU2118	Integrated Logistics Support Management	12CP

List D—Core Unit

All the following courses must be completed to be awarded the Master of Aviation Industry Management

AERO2238	Aviation Research Project	24CP

Air Transport Training College

Professional Development Centre of the Singapore Institute of Aerospace Engineers

Air Transport Training College (ATTC) is the Professional Development Centre of Singapore Institute of Aerospace Engineers (SIAE)

ATTC provides quality systems related consultancy and education/training programs to serve the needs of the aerospace industry.

ATTC holds CAAS approval MTO/002 for Part 147 Approved training organisation. In addition to the Master of Aviation Industry Management course, it offers the following courses :

- Bachelor of Engineering Science (Aerospace Operations)
- Professional Certificate in Aerospace Workshop Operations
- Specialist Diploma in Aircraft Maintenance and Engineering
- Professional Diploma in Aircraft maintenance and Engineering
- Part 66 Basic Papers
- Human Factors Training
- WSQ Higher Certificate in Aircraft Maintenance

ATTC has classrooms fully equipped with audio video facilities and is a 5 minutes walk from the Eunos MRT station.

RMIT University is one of Australia's leading educational institutions, producing some of Australia's most employable graduates.

RMIT is an innovative, global university, with its heart in the city of Melbourne. It has an international reputation for excellence in work-relevant education and high quality research which is engaged with the needs of industry and community.

More than 57,000 students study at RMIT campuses in Melbourne in Vietnam, online, by distance education, and at 100 partner institutions throughout the world. A vibrant alumni community now stretches across more than 100 countries.

More than 200 higher education and vocational education programs are offered across a broad range of fields. Many specialist programs are regarded as among the best of their type in Australia.

RMIT is a member of the Australian Technology Network, a coalition of five Australian universities who share a heritage of working with industry and a united vision for the future.

Global alliances include membership of GU8, a consortium of universities working to foster joint research and education in the fields of business, logistics, marine affairs, and advanced technologies (information technology, biotechnology, and nanotechnology).

To apply for admission into the master program, please obtain the application form from:
